Jennifer, Craig, please see the attachment and my follow-up/additional information garnered during a call with Ms. Scroggins.

Ms. Scroggins was leading a tour of the Carter Road, Dimock Township, Susquehanna County area today.

The water well vent stack at the [Ex. 6 - Personal Privacy] was noisy, a hissing sound today.

Ms. Scroggins had noticed this hissing for over one month but the noise seemed worse today.

She was able to hear the noise from 15 feet away and expressed concern that a couple homes are within 30 feet distant of the vent.

She is further concerned that the [Ex. 6 - Personal Privacy] have been told that their water is safe to drink but no one has provided that claim in writing.

She is concerned about their age and frustration and not receiving formal guidance on what to do and that the vent may pose a fire risk.

This is a residence covered under the current DEP/Cabot Oil & Gas CASA covering the affected area and I am uncertain what type of response from the Scranton District Office should be provided.

Please be advised the WQS staff in their entirety are in Ebensburg today concluding the CPESC training.

Your guidance please, and thank you.

Ruth, hold off on entering this into NCRO CTS, I'll follow-up appropriately at a later time.

Alice, thanks for sending this along.
